

Fort Wayne Sentinel.

SATURDAY, APRIL 14, 1855.

Lecture.—A Lecture will be delivered before the Young Men's Literary Association, at Cole's Hall, on Thursday evening next, April 19th, by W. W. Dowe of Kentucky. Subject: "Formation of Character."

CITY ELECTION.

Democratic Meetings.

We are desired to give notice that Democratic Meetings will be held in each ward of the city next Wednesday evening, at half past 7 o'clock, as follows:

1st Ward,—at McJunkin's School House; 2d " " Court House;

3d " " L. P. Waters' Office;

4th " " Dr. A. Tolerton's Office;

5th " " T. Baldwin's Carpenter shop.

At these meetings, two Aldermen will be nominated for each respective Ward; and also & delegates appointed to attend a CITY CONVENTION to be held at the Court House next SATURDAY evening, to nominate candidates for Mayor, Marshal, and other City Officers.

Opening of Navigation.—Water was let into our canal on Wednesday evening last, and navigation is now open to Toledo. The water will be let into the western division this evening, and by Monday the entire length of the canal will be navigable.

Our warehouses are all filled to overflowing with produce, and the prospect for spring business on the canal is good. When we take into account the large amount of produce taken off by the railroad this winter, and also that the wheat crop last fall was far below an average, the fact that more produce is now stored here than on any previous spring, is a gratifying evidence of the rapid improvement of the country and increase of the area under cultivation; and also that the scope of country making Fort Wayne's market is gradually extending.

It takes many years to bring a heavily timbered country like ours into cultivation, and some time will yet elapse before we reach our maximum of production; but the time is not far distant when Fort Wayne will be by far the greatest grain and provision exporting point in the State.

Fort Wayne & Chicago Railroad.—We are gratified to learn that the prospects of this road are brightening, and there is a fair prospect that sufficient funds will be raised to enable the company to progress with the work. Orders have already been given to recommence operations on the line between Fort Wayne and Coloma, and get it in readiness for the iron by July next. It is confidently expected that the work will be finished and cars running to Coloma by November next.

Gas Works.—The gas company at this place have purchased Drake's old ashery at the north end of the Barr Street Bridge, and the adjoining lot, for the purpose of erecting their works. The old building is now being removed, and the erection of the works will shortly be commenced. By next winter we shall have the gas introduced among us.

Know Nothingism revealing itself.—The Know Nothing Legislature of Massachusetts have passed a resolution making it unlawful for any person born in the U. S. to hold any office of trust or emolument in that benighted state.

This shows to what length the intolerance of the Know Nothing faction will go where they have the power. Thousands of the citizens of the United States are thus disfranchised and deprived of their rights at a single blow; and we suppose the next step will be to rob them of the right of voting, and thus place them below the four negroes, who enjoy that privilege in Massachusetts.

Attempts.—Attempts are making in many places by the N. S. to enlist the support of protestant foreigners by assuring them that the efforts of the party are directed solely against Catholics. The course adopted in Massachusetts shows the basity of the pretence, and should be a warning to naturalized citizens of every creed, who do not wish to be degraded below the level of free negroes, to unite with the democrats in a determined and active opposition to the anti-republican principles of the odious and proscriptive faction.

Fire.—About noon, on Tuesday last, the roof of the brick house at the corner of Lafayette and Washington streets, belonging to Mr. E. Smith, was discovered to be on fire. Could access to the roof have been gained immediately the progress of the fire might easily have been arrested; but this could not be done, and the whole roof was soon in a blaze. Fire Engine No. 2 was on the ground, but for the want of the fireman who could not do any thing. The building was totally destroyed. No insurance was taken by Mr. Proboscis, who fortunately saved the greater part of his furniture. The adjoining building of Mr. Leyman was in great danger, but was saved by the active exertions of his friends. The wind was blowing strongly at the time, carrying sparks and embers to a great distance, and setting fire to a stable on the next street, but it was fortunately extinguished before any damage was done.

The fire was caused by sparks from a low chimney near the lower edge of the roof, which were blown up or under the shingles, and soon fanned into a blaze by the wind. Builders are not as cautious as they should be in this respect. Many fires are caused by low and ill-constructed chimneys.

Some steps ought to be at once taken to provide reservoirs in the upper part of the city. There is scarcely a place, except near the canal, where sufficient water can be procured to render the engines available, and the only resource is to use buckets—a most inefficient method, and one that can never be effectual when the fire has gained much headway. This is a subject that should engage the attention of the new city board at their first meeting.

FREE LIBRARY.—The Wayne Township School Library, containing a well selected assortment of upwards of 200 volumes of choice books, is open every Saturday from 1 to 3 o'clock in the afternoon, and from 7 to 9 in the evening. The library is kept in the Sheriff's office, over the Recorder's office.

The books are lent out free of charge. This will be a good opportunity for the youths of our city and vicinity to improve their minds and acquire a habit of reading and study, which may prove of inestimable value to them hereafter.

Warning to Boys.—A young boy was seriously injured and perhaps crippled, on Tuesday last, by attempting to jump off the freight cars while in motion. He fell to the ground with considerable force and received severe injury in the back and knee.

We have often noticed a parcel of ill-bred boys chambering about the cars as they pass through the streets; and not unfrequently they will stand on the track until the cars are almost upon them, the one who stands the longest thinking himself the greatest hero. Their parents should attend to them, or some of them will inevitably be killed by their fool-hardiness. If the Marshal would occasionally look after the urchins and "switch them off" he would do them a great favor, and might perhaps be the means of saving their lives or limbs.

The marked for Cotton at Liverpool was active during the week, and the sales reached 87,500 bales, of which speculators took, 14,000 bales, and exporters 13,000 bales.

Breadstuffs.—Were steady all the last quotations.

Nothing had transpired in the Provision market; the demand was moderate at previous prices.

The Money market at London was easier

Consols c'd at 923.

Brown & Shipley say the demand for Cotton was good, and prices advanced 1-16 a. id. during the week. The stock at Liverpool was 614,000 bales, of which 422,000 bales were American.

The same parties report Breadstuffs unchanged, with moderate demand. New Western Flour, 36 a. 39s; old do, 41 a. 42s, and old Philadelphia, Baltimore and Ohio, 43 a. 45s;

White Wheat, 12s, 6d, and Red, 11s, 3d; White Corn, 43 a. 41s, and Yellow, 42 a. 43s. Some circulars say Corn had advanced 10d. per quarter.

Richardson, Spence & Co. quote Provision generally unchanged but the market closed dull, and Lard again lower.

The advices from Manchester are favorable.

Barings's circular says the bullion in the Bank of England had further increased, American Stocks active, and prices unchanged. Breadstuffs dull. Sugar lower. Rails are quoted, on board, in Wales, at 26 15s; Bars at 27, and Scotch Pig at 57s, 6d., on the Clyde.

GENERAL INTELLIGENCE.

The advices from Sebastopol contain nothing of special importance. The general aspect of affairs was unchanged.

From the Conference at Vienna the advices are important. The first of the four points, guaranteeing that the Principalities be placed under the protection of the five powers, was unanimously adopted.

Recently a gang of gamblers and ruffians attacked a social party assembled at the house of one of the wealthiest citizens, and were not beaten off until three of their leaders were shot dead and several others wounded. Since then no person attends a ball without girding up his loins with a belt and six shooter, carrying a pocket full of bullets, with a pound or so of powder in his hat, and half a yard of Bowie knife artfully concealed in the leg of his pantaloons.

Result in Connecticut.—Last year a Whig Governor was chosen in Connecticut. This year there is no choice; the Democratic candidate is the highest on the list, the Know Nothing next, and the Whig candidate last.

The abolition of the exclusive protectorate of Russia over the provinces of Moldavia and Wallachia; the privilege conceded to these provinces by the Sultan being placed under the control of the five powers.

The latest dispatches from Vienna, which are up to Friday evening, say the Conference was progressing favorably, and the second point had been agreed upon that day, or would be the day following; but it must be understood that the result of the Conference are groundless.

The new Emperor of Russia had made several speeches, those to his ministers were mild and peaceful, but those to the army warlike; on the whole, his language is interpreted in a pacific sense.

The first of the four points which has been agreed upon by the Vienna Conference reads as follows:

The first of the four points which has been agreed upon by the Vienna Conference reads as follows:

An exchange suggests that Merchants and business men generally should use envelopes with their names and locations printed upon them. In this way, if they omit to pay their postage by accident, the letters may be returned to them promptly and safely. The expense will be trifling, and the result may be important.

HARMONY LODGE No. 19

SPECIAL MEETING.

All Members of the Order are specially invited to attend this Saturday evening at half past 7 o'clock, to make arrangements for attending the funeral of Br. George Wilson.

C. ORFF, R. S.

Mr. Editor.—As there is a general feeling in favor of having an efficient, trusty, and capable man to fill the office of Mayor for the ensuing year, you will oblige many citizens by announcing the name of W.M. STEWART as candidate for that station.

pd

We are desired to state that B. HUTKER is a candidate for re-election as Street Commissioner.

pd

Mr. Tigar.—Please announce RICHARD N. GODFREY as a candidate for City Clerk.

MANY VOTERS.

Mr. Editor.—Please announce THOMAS IRWIN as a candidate for the office of City Marshal—subject to the decision of the Democratic Convention.

Mr. Editor.—Please announce JAMES HOWE as a candidate for the office of City Marshal.

MANY DEMOCRATS.

We are authorized to announce J. F. FRANK as a candidate for re-election to the office of City Marshal.

pd

Editor of the Sentinel.—You will announce to the voters of the City of Fort Wayne that ROBERT C. FILLSON is a candidate for the office of "City Marshall" at the election for City Clerks which comes off on the 1st day of May next.

MANY VOTERS.

Fort Wayne, March 31, 1855. 5w39

The best evidence that can be adduced in favor of the efficaciousness of Hoofland's German Balsam, prepared by Dr. C. M. Jackson, is the unprecedent demand for them from all parts of the Union; and although there may be many compounds prepared and represented as being worthy of a liberal patronage, yet we feel constrained to remark, that the vast number of specimens with which the worthy doctor has been honored, by persons of the highest character and respectability, who found it necessary to have recourse to his preparation, the testimony sufficiently conclusive, that a more effectual remedy for the almost immediate relief of those afflicted with that dreadful malady, dyspepsia, has never been discovered. See advertisement. 2w41

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs—We refer to "Dr. Curtis's Hygea, or Inhaling Hygean Vapor of Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks—it is evident that inhalation—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavities of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygea is to sit at all the druggists throughout the country. New York *Advertiser* of Jan. 14th.

See advertisement. Medicated Inhalation in other column of this paper.

GRATUIT CURE OF RHEUMATISM—The Editors of the Richmond Republican, of Dec. 24, 1852, say that Carter's Spanish Mixtura is no quick medicine. They had a man in their press room who was afflicted with violent mercurial rheumatism, who was continually complaining of misery in the back, limbs and joints; his eyes had become feverish and masterly neck swollen, throat sore, and all the symptoms of rheumatism, combined with Sifofulosis. Two bottles of Carter's Spanish Mixtura cured him, and in an editorial notice as above, they bear testimony to its wonderful effects, and say their only regret is, that all suffering with diseases of the blood are not aware of the existence of such a medicine. They cheerfully recommend it. See their certificate, and notice in full round the bottle. 3w38

COMMERCIAL.
Fort Wayne, Saturday, April 14.

Wheat is still looking up. Some lots have sold as high as 1 95. We quote this morning, at 80 a 1 90. Flour, city retail, 9 50; country, from wagons, 9 00.

Corn 50 a 55; Oats 35; Barley 1 25; Rye 75 a 80; Beans 1 50 & 2 00; Potatoes 1 00; Onions 75; Butter 1 50 a 16; Cheese 10; Eggs 84; Salt—; Lard 67; Hams 7; Pork 4 00 & 25; Beef 4 50; Flaxseed 1 00; Clover Seed 5 00 a 55; Timothy 1 25 a 17; Wool—; Green Apples 1 50 a 1 75; Dried 2 00.

MARRIED.—On Monday evening 9th inst by John B. Dubois Esq. Mr. E. C. GROVER to Mrs. FANNY A. JUDKINS all of this city.

DIED.—On Wednesday Morning, Mr. E. L. BEQUETTE, aged 22 years.

—Yesterday evening, aged 37 years, Mr. GEORGE WILSON of this city.

Funeral at the 1st Presbyterian Church, tomorrow afternoon at three o'clock.

Curriculum.—A Lecture will be delivered before the Young Men's Literary Association, at Collier's Hall, on Thursday evening next, April 16th, by W. W. Donisthorpe, of Kentucky.

Subject:—"Formation of Character."

CITY ELECTION.

Democratic Meeting.

We are desirous to give notice that Democratic Meetings will be held in each ward of the city next Saturday evening, at half past 7 o'clock, as follows:

1st Ward— at McLurkin's School House;
2d " " Court House;
3d " " L. P. Watson's Office;
4th " " Dr. A. Tolerton's Office;
5th " " T. Baldwin's Carpenter shop.

At these meetings, two Aldermen will be nominated for each respective Ward; and also 8 delegates appointed to attend a CITY CONVENTION to be held at the Court House next SATURDAY evening, to nominate candidates for Mayor, Marshal, and other City Officers.

Opening of Navigation.—Water was let into our canal on Wednesday evening last, and navigation is now open to Toledo. The water will be let into the western division this evening, and by Monday the entire length of the canal will be navigable.

Our warehouses are all filled to overflowing, with produce, and the prospect for spring business in the canal is good. When we take into account the large amount of produce taken off by the railroad this winter, and also that the wheat crop last fall was far below an average, the fact that more produce is now stored here than on any previous spring, is a gratifying evidence of the rapid improvement of the country and increase of the area under cultivation; and also that the scope of country making Fort Wayne its market is gradually extending.

It takes many years to bring a heavily timbered country like ours into cultivation, and some time will yet elapse before we reach our maximum of production; but the time is not far distant when Fort Wayne will be by far the greatest grain and provision exporting point in the State.

Fort Wayne & Chicago Railroad.—We are gratified to learn that the prospects of this road are brightening, and there is a fair prospect that sufficient funds will be raised to enable the company to progress with the work. Orders have already been given to reconstruct operations on the line between Fort Wayne and Coloma, and get it in readiness for the iron by July next. It is confidently expected that the work will be finished and cars running to Coloma by November next.

Gas Works.—The gas company at this place have purchased Drak's old works at the north side of the Main Street Bridge, and the adjoining lot, for the purpose of erecting their works. The old building is now being removed, and the erection of the works will shortly be commenced. By next winter we shall have the gas introduced among us.

Know Nothing recruiting itself.—Thus now nothing legislature of Massachusetts have passed a resolution making it unlawful for any person born in the U. S. States, to hold any office or trust in that state.

This shows to what length the intolerance of a Know Nothing faction will go where they have the power. Thousands of the citizens of the United States are thus disfranchised and deprived of their rights at a single blow; and we suppose the next step will be to rob them of the right of voting, and thus place them below the few negroes who enjoy that privilege in Massachusetts.

Attempts to make in many places by the Know Nothings to subdue the support of foreign friends by securing them that the efforts of the party are directed solely against Catholics. The course adopted in Massachusetts shows the folly of the party, and should be a warning to naturalized citizens of every creed, who do not wish to be degraded below the level of free citizens, to unite with the democrats in a determined and active opposition to the anti-republican principles of this odious and proscriptive faction.

Fire!—About noon, on Tuesday last, the roof of the brick house at the corner of Lafayette and Washington streets, belonging to Mr. E. Smith, was discovered to be on fire. Could not in the roof have been ignited immediately the progress of the fire, might easily have been arrested; but this could not be done, and the whole roof was soon in a blaze. Fire Engine No. 2 was on the ground, but for the want of water could not do any thing. The building was totally destroyed. No insurance. It was occupied by Mr. Prohaska, who fortunately saved the greater part of his furniture. The adjoining building of Mr. Leyman was in greater danger, but was saved by the active exertions of his friends. The wind was blowing strong at the time, carrying sparks and embers to a great distance, and setting fire to a stable on the next street, but it was fortunately extinguished before any damage was done.

The fire was caused by sparks from a low chimney near the lower edge of the roof, which were blown upon or under the shingles, and soon kindled a blaze by the wind. Builders are not as cautious as they should be in this respect. Many fires are caused by low and ill-conducted chimneys.

Some steps ought to be at once taken to provide reservoirs in the upper part of the city. There is scarcely a place, except near the canal, where sufficient water can be procured to render the engines available, and the only resource is to use buckets—a most inefficient method, and one that can never be effective when the fire has gained much headway. This is a subject that should engage the attention of the city board at their first meeting.

Free Library.—The Wayne Township School Library, containing a well selected assortment of upwards of 200 volumes of choice books, is open every Saturday from 1 to 3 o'clock in the afternoon, and from 7 to 9 in the evening. The library is kept in the Sheriff's office, over the Recorder's office.

The books are lent out free of charge. This will be a good opportunity for the youth of our city and vicinity to improve their minds and acquire a habit of reading and study, which may prove of inestimable value to them hereafter.

Warning to Boys.—A young boy was seriously injured, perhaps crippled, on Tuesday last, by attempting to jump off the freight cars while in motion. He fell to the ground with considerable force and received severe injury in the hand and knee.

We have often noticed a parcel of ill-bred boys a chattering about the cars, as they pass through the streets; and not infrequently will they stand on the track until the cars are almost upon them, the one who stands the longest, thinking himself the greatest hero. Their parents should attend to them, or some of them will inevitably kill themselves by their foolhardiness. If the Marshal would occasionally look after the nucleus and switch them off, it would do them a great favor, and might perhaps be the means of saving their lives or limb.

The long continued dry weather and cold winds have had a bad effect on the wheat, and created some fear that it would be seriously injured. We had a fine rain last night, and the weather to-day is warm and genial, which we hope will restore the suffering crop.

A Pleasant Place to live in.—In Angeles, California, may be a perfect Paradise as its name (City of the Angels) would seem to indicate. Streets with knives or pistols, fractures, and assassinations are of daily, or rather nightly occurrence; and the common morning salutation when you meet is "Any body killed last night?" The occurrence of only two or three assaults or murders in a week is reckoned slow business in the easiest line, but a couple of encounters with pistols and a stabbing case every twenty-four hours is held to be a tolerably average transaction.

Recently a gang of gamblers and ruffians attacked a small party assembled at the house of one of the wealthiest citizens, and were shot dead, all, until three of their leaders were shot dead, and several others wounded. Since then no person attends a ball without girding up his scabbard with a belt and six shooter, carrying a peck of full of bullets, with a sword or a pistol in his belt, and half a yard of bowie knife artfully concealed in the log of his pantechnum.

Result in Connecticut.—Last year, while Governor was chosen in Connecticut. This year there is no other choice Democratic candidate is the highest of the list, the Know Nothing next, and the Whig candidate last.

Go to, Hoors!—Mr. A. L. Hanna has bought the boat and ship establishment of F. S. Aspinwall, and has rechristened the vessel with a full assortment of new articles of the latest style and best workmanship and materials. He has engaged the prominent boat-builder of Allen County to take charge of the custom work, and he will fit the finished boats to a "Gout of eyes," while the ladies cannot fail to be amused by the excellent stock of eastern shoes, galatees, slippers, &c. provided for them.

Mr. H. is favorably known to the customers of the old establishment for his obliging and courteous demeanor, and we prefer for him a good run of custom. That his customers will be well satisfied with his goods and prices there can be no doubt.

Gloucester.—We direct the attention of our readers to the new advertisements of Messrs. Williams & Hedges. They are now receiving a fresh and full stock of choice family groceries, which they are prepared to sell at family prices on the most favorable terms.

Sett School.—We direct the attention of parents to the advertisement of Mrs. Griffith, who proposes opening a school, at her residence, of Barr and Berry Streets, on Monday, April 23d. Mrs. G. we understand, is highly qualified for the responsible duties of a teacher, and will doubtless give entire satisfaction to those who trust their children to her care.

Schools in Toledo.—A notice in the paper contains the following notice of the schools in Toledo:

The schools of the old town are in a satisfactory condition, and we prefer for him a good run of custom. That his customers will be well satisfied with his goods and prices there can be no doubt.

Gas Works.—The gas company at this place have purchased Drak's old works at the north side of the Main Street Bridge, and the adjoining lot, for the purpose of erecting their works. The old building is now being removed, and the erection of the works will shortly be commenced. By next winter we shall have the gas introduced among us.

Martin Van Buren, Jr., son of the ex-President.—He died while at dinner in Paris on the 24th ult. He had been long suffering with consumption.

State of the Rescuing Army before Sebastopol.—The last accounts from the Crimea, extending to the 8th of March, present a most agreeable contrast to the painful and unvarying record of hardships, privations, and inaction which we have been compelled to read many weeks and months together in our readers. As if by some sudden and mysterious influence, the touch of spring has refreshed the army, and everything bears marks of reinvigorated energy and soaring spirits. The weather is fine, and the heavy damp

which has settled into the base soil are almost dried up. The new commandant of Sebastopol, Colonel Hardinge, has already changed the aspect of the town, and Lord Raglan, with the chief of his staff, is again visible at the camp, at the port, and in the lines. The hospitals and accumulated filth, which rendered that squalor of British troops insufferable even by unclean animals, have been swept away. A most dismal with shore houses have risen under the cliff. The troops have fresh provisions, and even vegetables, but have been erected, and clothes distributed; large numbers of horses and ponies have arrived for the transport service, and the army has regained a sense of cheerfulness and confidence which appeared for some time to have deserted those who were most interested in their welfare.—*London Times*.

Four Days Later from Europe.—Arrival of the Steamer Baltic.—Aspect of affairs more peaceful.

Say of Rouen, Friday, April 6—1 P. M.

The steamer Baltic, with advices from Liverpool to Saturday, the 21st ult, has arrived off this point.

COMMERCIAL INTELLIGENCE.

The market for Cotton at Liverpool was active during the week, and the sales reached \$1,500 bales, of which speculators took 11,000 bales, and exports 13,000 d.

Breadstuffs were steady all the last quotations.

Nothing new had transpired in the Provision market; the demand was moderate at previous prices.

The Money market at London was easier than at Paris.

Shipping says the demand for Cotton was good, and prices advanced 14-16 a lb. during the week. The stock at Liverpool was 161,000 bales, of which 122,000 bales were American.

The same parties reported Honduras unchanged, with moderate demand. New Westminister flour, 35 a bush.; old do, 41 a bush.; and old Philadelphia, Baltimore, and New York, 42 a bush.; White Wheat, 120, old, and Red, 120, 34; White Corn, 34 a bush., and Yellow, 32 a bush. Some cotton at New York had advanced 9d per quarter.

Richardson's Spence & Co. quote provisions generally unchanged but the market closed dull, and laid again lower.

The address from Manchester is as follows:

"Court House;"

"L. P. Watson's Office;"

"Dr. A. Tolerton's Office;"

"T. Baldwin's Carpenter shop."

At these meetings, two Aldermen will be nominated for each respective Ward; and also 8 delegates appointed to attend a CITY CONVENTION to be held at the Court House next SATURDAY evening, to nominate candidates for Mayor, Marshal, and other City Officers.

Opening of Navigation.

Water was let into our canal on Wednesday evening last, and navigation is now open to Toledo. The water will be let into the western division this evening, and by Monday the entire length of the canal will be navigable.

Our warehouses are all filled to overflowing,

with produce, and the prospect for spring busi-

ness in the canal is good. When we take into

account the large amount of produce taken off

by the railroad this winter, and also that the

wheat crop last fall was far below an average,

the fact that more produce is now stored here

than on any previous spring, is a gratifying

evidence of the rapid improvement of the

country and increase of the area under culti-

vation; and also that the scope of country making

Fort Wayne its market is gradually exten-

sive. It takes many years to bring a heavily timbered

country like ours into cultivation, and some

time will yet elapse before we reach our

maximum of production; but the time is not far

distant when Fort Wayne will be by far the

greatest grain and provision exporting point in the State.

Result in Connecticut.

Last year, while Governor was chosen in Connecticut. This year there is no other choice Democratic candidate is the highest of the list, the Know Nothing next, and the Whig candidate last.
